Full equivalents will be accepted instead of the text books named, but Greek and Latin prose will not be received as a substitute for poetry.

Candidates for advanced standing are examined in the requirements for admission to the College, and also in the studies which have been pursued by the class they wish to enter. For the particular books in Greek, Latin, or Modern Languages studied by each class, equivalent amounts may be offered from other books in the same language.

Candidates for admission to the Scientific Course will not be examined in Greek, nor in the Georgics and Bucolics of Virgil.

The examination for admission begins at 9 o'clock, A. M., on Thursday of the week preceding Commencement and on the last Tuesday of the summer vacation (June 24th and September 7th, 1880), and, at each time, the examinations will continue two days. Those who apply for examination on these days, should present themselves punctually at the appointed hour, at Walker Hall. In special cases, candidates may be examined and admitted at other times in the year, but for such private examination, application must be made in writing. No admission to the Senior class is allowed later than the beginning of the second term.

Before examination, the candidate must exhibit satisfactory testimonials of good moral character. If he has been a member of any other College, he must present a certificate of regular admission.

No one can be admitted to the Freshman Class until he has completed his fifteenth year, and no one to an advanced standing without a corresponding increase of age.

Candidates for admission, who remain conditioned after the September examination, or receive conditions at that time, will be required to study under a teacher authorized by the examiners, and a small fee will be charged. It is, therefore, desirable that as many as possible present themselves at the June examination, that they may have an opportunity to cancel any conditions then received, in September.

Information in relation to rooms or boarding places may be obtained by applying to the College Janitor, Lansford Gates, No. 20 North College.

SCIENTIFIC COURSE.

The general course is so arranged, that a four years' Scientific Course is formed by omitting the Greek entirely, and substituting advanced work in Science and Modern Languages, as indicated in the schedule of studies on the last page. The degree of Bachelor of Science is conferred on any student who has satisfactorily completed this course.

PARTIAL COURSE.

Persons who are unable to pursue the course required for the degree of Bachelor of Arts, are admitted to the privileges of the Institution and permitted to carry forward such studies as they may select, when approved by the Faculty. At the end of the course, a certificate of their attainments will be given on application to the President.

RESIDENT GRADUATES.

Graduates who wish to pursue a more extended course of study in any department can do so by making arrangements with the College for that purpose.

DEGREE OF MASTER OF ARTS.

Candidates for the degree of Master of Arts in course must be graduates of at least three years' standing and must have spent at least two years in professional or other liberal studies. In ordinary cases they must be recommended by the Faculty. Graduates who wish to obtain this degree should send their request to the Faculty, with appropriate vouchers, on or before the twenty-third day of June.

EXERCISES.

There are either three Recitations, or two Recitations and two Lectures daily, excepting Wednesday and Saturday, when one Recitation is omitted.

On Wednesday afternoon there are general exercises in selected and original declamations in the College Chapel.

There are also weekly rhetorical exercises for each class. From the Seniors and Juniors, compositions, original declamations, and debates, are required; from the Sophomores and Freshmen, written translations, declamations, and compositions. For the declamations, preparation is made by private rehearsal.

Public worship is held in the College Church every Sunday, and there are prayers in the Chapel every week-day morning. Every Thursday evening there is preaching or some other religious exercise, which the students are invited to attend. There are class prayer-meetings regularly on Sunday evenings.

EXAMINATIONS.

Examinations will be held with all the classes, at or near the close of each term.

A record is kept by the Faculty, of the attainments and deportment of every student, and each student's standing on the merit roll is made known to him, or sent to his parent or guardian, at the discretion of the Faculty, near the beginning of every term. Information concerning proficiency and deportment is communicated, at other times, to the parent or guardian, when requested or when deemed necessary.

LIBRARIES.

The Libraries of the College and the Literary Societies contain about forty-one thousand volumes. The College Library and Reading Room are open every day (Sundays and Holidays excepted), from a quarter-past nine to half-past eleven o'clock, A. M., and from a quarter-past one to four o'clock, P. M. Books of reference may be consulted at any hour when the Reading Room is open. The Libraries of the two Literary Societies have been incorporated with that of the College, but are accessible only to members of the societies. The Social Union Reading Room, No. 1 North College, is open every day except Sunday.

APPARATUS FOR MATHEMATICAL AND PHYSICAL SCIENCE.

The LAWRENCE OBSERVATORY, consisting of a transit room, and a tower with a revolving dome, is furnished with instruments for accurate astronomical observations. The pier in the centre of the tower sustains a refracting telescope, mounted equatorially, having a focal length of nine feet and an aperture of seven and one-fourth inches. The transit room contains a transit circle, clock and chronograph, for meridian observations. The observatory also contains an altitude and azimuth instrument, and instruments, of the latest and best construction, for surveying and engineering.

The collection of Apparatus for Experiments in Natural Philosophy is extensive, and well adapted for a course of experimental illustrations. It occupies a room in the second story of WALKER HALL, where ample accommodations are furnished for its arrangement and use.

The Chemical Laboratory and Lecture Room occupy the first story of WILLISTON HALL. These rooms are furnished with apparatus for an complete course of chemical experiments.

CABINETS OF NATURAL HISTORY.

The specimens, illustrating Natural History and Human Antiquities, are deposited in the three buildings known as the Woods Cabinet, the Appleton Cabinet, and Walker Hall.

The WOODS CABINET is named in honor of the Hon. Josiah B. Woods, of Enfield, its principal donor. It contains all the Geological Collections of the College, consisting of the general American and European Collections, the State Survey Collections of New Hampshire, Vermont, Massachusetts and Connecticut, and the Shepard Meteorite Collection, comprising in all above 25,000 specimens. An adjoining room, called the Nineveh Gallery, built by Enos Dickinson, of Amherst, contains specimens obtained by Dr. Henry Lobdell from the ruins of ancient Nineveh and Babylon. It exhibits sculptured slabs from the palace walls of Sardanapalus at Nimroud, and many antique coins, seals, and cylinders from the same cities.

In the APPLETON CABINET, named from the Hon. Samuel Appleton, of Boston, are the Hitchcock Ichnological Collection, the Gilbert Museum of Indian Relics, and the Adams Zoölogical Collection.

In the Ichnological Collection, named after President Hitchcock, are to be found about 1,400 specimens, containing at least 20,000 tracks of animals in stone, together with plaster and clay casts of tracks of living and fossil animals. The Museum of Indian Relics receives its name from the Hon. George H. Gilbert, of Ware, by whose liberality it was mainly established. It comprises about 3,500 specimens of the stone implements of extinct Indian tribes, principally those who lived in the Connecticut Valley. The Zoölogical Collection was principally gathered and arranged by Professor Charles B. Adams. It comprises prepared specimens of animals and their habitations, and dried plants, representing all the great groups of the animal and vegetable kingdoms. In the department of shells it is particularly extensive and valuable. A Collection in Comparative Osteology has been commenced, and is incorporated with this collection.

WALKER HALL is named in honor of Dr. William J. Walker, its principal donor. The third story contains the Shepard Mineralogical Collection, consisting of more than 10,000 specimens; also a collection of plants, and mineralogical apparatus.

The collections as arranged in these several cabinets, contain more than 100,000 specimens of the animal, mineral and vegetable kingdoms.

The cabinets are open to the public each week-day, from ten to eleven o'clock, A. M., and from three to four o'clock, P. M., when the custodians will be in attendance.

PHYSICAL CULTURE.

The BARRETT GYMNASIUM, named in honor of Dr. Benjamin Barrett, of Northampton, is open to the members of the College for voluntary exercise, and at an appointed hour each class is required to be present and engage in exercise under the direction of the Professor of Hygiene. Attention to the requirements in this department has its share in determining the standing of the student in College. The required exercises consist almost entirely of the light gymnastics, the movements

of which are guided and timed by music, while the heavy and more difficult gymnastic work is entirely at the option of the student. No effort is required of any student which cannot be safely and profitably undertaken by any person who is sound in body and mind.

The Professor in this department is a physician, and, as far as possible, is expected to be acquainted with the physical condition of each student in town during term-time. All students are permitted to consult him without charge.

GALLERY OF ART.

This room contains a collection of casts of ancient and modern statuary, and photographs, illustrating the architecture and sculpture of Europe. The gallery is open to the public each week day, at the same hours as the Scientific Collections.

SCHOLARSHIPS.

The College has a fund of seventy-five thousand dollars, the income of which is appropriated to young men who are preparing for the Christian ministry, and need assistance. Forty-two such students can each receive a scholarship sufficient to cancel the general Term Bill. Each of these students ordinarily obtains from the American Education Society also about one hundred dollars annually.
